6. **QUESTION TIME**

6.1 **PROCUREMENT OF EXTERNAL LEGAL SERVICES**

In response to the following question submitted by Comhairleoir J. Buttimer, a written reply was circulated as outlined below:-

To ask the Chief Executive for a report on the process for procurement of external legal services by Cork City Council since 2014 and to report on an annual basis, the firms and/or individuals who have been retained by Cork City Council, the amounts paid to each firm and or individual, the nature of work undertaken and when the next procurement competition will open?

(Cllr. John Buttimer)  
(Deferred from meeting of 11<sup>th</sup>  
September)

**REPLY**

Cork City Council legal department headed by the Law Agent provides legal services to support the Council's operations and this is supplemented by specialist legal services as required. In addition legal services which support the management of public liability claims taken against the Council are outsourced, on the basis of a long standing contract.

Towards the end of 2016 the Office of Government Procurement put in place a Multi Supplier Framework Agreements for the Provision of Legal Services. We are assessing this framework to see if it meets the specific requirements we have in the area of public liability claims. Given the unique situation that Cork City Council is in within the local authority sector regarding its management of claims using such a framework poses significant risks to our self insured model. It looks like we will have to change the structure of how we currently engage with a legal services provider to avail of the framework. At present we are working on the complexities and risks that this entails with a view to using the framework if possible.

John Hallahan  
Head of Finance

6.2 **REJECTED PROPERTIES BETWEEN 2016 AND SEPTEMBER 2017**

The following question submitted by Comhairleoir F. Ryan was deferred to the next Meeting of An Chomhairle to be held 9<sup>th</sup> October 2017.

Can Cork City Council confirm how many properties between 2016 and September 2017 were rejected or turned down due to “estate management” or “mixed tenureship” purposes?

(Cllr. Fiona Ryan)

6.3 **FOOTPATH ON MAGAZINE ROAD**

In response to the following question submitted by Comhairleoir M. Shields, a written reply was circulated as outlined below:-

Would it be possible to have the footpath on Magazine Road from Highfield Avenue for about 50 yards to past O’Connell’s Chemist Shop assessed and reinstated?

At the moment it is very damaged and pedestrians, as well as wheelchair users, are finding it difficult to use it. I am sending in photographs to Roads’s Department to illustrate the condition of this footpath.

(Cllr. Mary Shields)

**REPLY**

It is intended that this section of footpath will be upgraded as part of the proposed footpath renewal contract in 2018.

Gerry O’Beirne,  
Director of Services,  
Roads & Transportation.

6.4 **PARKING REQUIREMENTS UNDER CITY DEVELOPMENT PLAN**

In response to the following question submitted by Comhairleoir T. Gould, a written reply was circulated as outlined below:-

Why did Cork City Council Planners choose to implement the parking requirements under the City Development Plan 2015/2021 when refusing planning permission for development on Endsleigh Lodge in Douglas Planning no REF 1737474 16th Aug 2017 and why did the planner emphasized when making their decision that under-provision of parking spaces by the applicant was a contributory factor. There were no submissions from the public objecting to this application.

Why when in the submissions for planning no Ref 1637178 December 5th 2016 did Cork City Council Planners choose not to implement the parking requirements under the City Development Plan after people provided documentary evidence of safety concerns yet Cork City Council Planners granted in favour of that application.

(Cllr. Thomas Gould)

**REPLY**

It is not possible to respond to this question as these are live planning applications.

Pat Ledwidge,  
Director of Services,

(Cllr. Kenneth Collins)

### **6.7 HOUSING APPLICANTS IN EMERGENCY ACCOMMODATION**

In response to the following question submitted by Comhairleoir M. Nugent, a written reply was circulated as outlined below:-

Can the CE outline how those housing applicants in emergency accommodation are prioritized in terms of social housing allocations? Has the Housing Minister, Eoghan Murphy, T.D. indicated any new supports in terms of moving families and individuals out of emergency accommodation?

(Cllr. Michael Nugent)

## **REPLY**

Section 22 of Housing (Miscellaneous Provisions) Act 2009 places an obligation on all local authorities to adopt an allocation scheme which specifies, inter alia, the means to determine the order of priority to be given in the allocation of dwellings to households assessed by Cork City Council as being qualified for social housing support. Cork City Council's current Allocations Scheme gives the highest order of priority to applicants where their current accommodation is an institution, emergency accommodation or a hostel.

As at the end of August 2017, 259 (5.6%) of the 4,606 eligible applicants on the housing waiting list were eligible in this category. In the period from January to August 2017, 301 properties were allocated to eligible applicants. This included 16 offers (5.3%) to applicants who were in homeless, emergency or transitional accommodation, of which 12 proceeded to tenancy.

We are awaiting the review of the Rebuilding Ireland Action Plan document to see if it contains details of new supports for homeless families.

Can the CE supply the following information to Council:

How many applicants to date from Cork City Council's housing waiting list have been allocated a unit and housed in the Downview Complex on Farranlea Road through the approved housing society?

Was No. 37 Downview one of those units allocated to City Council for social housing through an approved housing society?

(Cllr. Henry Cremin)

## **REPLY**

Co-operative Housing Munster (formerly known as NABCO) is the nominated approved housing body with responsibility for the leasing and management of the housing units at Downview, Farranlea Road. Twenty three units were made available to Cork City Council to nominate approved applicants from the social housing list. This process was completed in early 2017. Number 37 Downview is not among these twenty three units.

V. O'Sullivan,  
Director of Services,

### 6.10 **PARTNERSHIP WITH EXTERNAL AGENCIES TO CLEAN GRAFFITI**

In response to the following question submitted by Comhairleoir K. McCarthy, a written reply was circulated as outlined below:-

To ask the CE on the response to the increase to serious graffiti on dwellings and businesses across the city? What is the existing partnership with the external agencies especially the Probation Service to clean graffiti through the community service programme?

(Cllr. Kieran McCarthy)

## **REPLY**

Cork City Council is aware of the recent spate of graffiti which has occurred across the city. The Council acknowledges that this type of anti social behavior is very distressing and upsetting for both residents and business owners.

Grffiti is not a victimless crime as under the Litter Pollution Act 1997 it is the property owners who are responsible for the removal of the graffiti from their premises and this can be both costly and time consuming.

The Probation Service does provide a graffiti removal service to the Cork City Council but as they have limited resources this service is focused on public/unoccupied or problematic buildings.

Cork City Council has also in the past worked with other groups, e.g. Reimagine Cork, in relation to the removal of graffiti particularly in the City Centre area.

A provision has been made in the 2017 Anti- Litter and Anti-Grffiti Awareness Scheme Grant for further projects run in conjunction with key stakeholders. The trust of these projects will be that once an area has been cleared of graffiti that the local communities, both businesses and residents, would come together and actively maintain a graffiti free zone by tackling instances of graffiti as and when they arise.

Defacement of property is a criminal act but the City Council has no role in the apprehension or prosecution of those involved in such activity.

David Joyce,  
Director of Services,  
Environment & Recreation.

(2) That a log would be kept of the cost incurred by private businesses and the local authority in the removal of tags from their property and that this cost would be added to any fine/penalty imposed on the perpetrators when they are apprehended this cost would then be repaid back to the said businesses. An Chomhairle considered and approved the report of the Director of Services, Housing & Community Services dated 14th September, 2017 on the following motion referred to the Committee by An Chomhairle:

'That Cork City Council produce a comprehensive rejuvenation plan for the local authority estate in Mayfield which is now almost 50 years old. Such a plan should not only involve refurbishment of housing units but should also include assessment and rejuvenation of the built environment. Such a plan should address mistakes of the past including the passageway known as the Tarry Path which runs between the blocks of houses. Unfortunately a minority continue to use this area as a focus for anti-social behaviour and illegal dumping. This is a reasonably large area which could be used for infill housing, especially 1 or 2 bedroom units which are so badly needed.'

(Proposer: Cllr. T. Tynan 17/177)

The report of the Director of Services stated that Mayfield is not included in the National Regeneration Programme. However, the City Architects Department is currently examining the feasibility of providing infill housing at the location outlined above. The Housing & Community Directorate will also facilitate a meeting with local ward councillors to agree a plan to deal with anti-social behaviour at the Tarry Path.

Even if the council owns the wall, no works could be done to it without the prior approval of the estate property owners and until the necessary resources could be found.

An Chomhairle considered and approved the report of the Director of Services, Housing & Community Services dated 14th September, 2017 on the following motion referred to the Committee by An Chomhairle:

‘That city council would at the very least contact the residents in the flats on cherry tree road Togher and give them some idea of when the work will be carried out on their back gardens in order that they can safely without fear have access to them again.’

(Proposer: Cllr. H. Cremin 17/219)

The report of the Director of Services stated that the Housing Maintenance Department is currently endeavouring to identify the source of the problem and the options to resolve same. Residents will be updated as soon as is reasonably possible.

#### 11.15 **HOUSING ALLOCATIONS – REQUEST FOR PERSONAL DETAILS**

An Chomhairle considered and approved the report of the Director of Services, Housing & Community Services dated 14th September, 2017 on the following motion referred to the Committee by An Chomhairle:

‘That in the interests of transparency in the expenditure of public money and to ensure the continuing dexterity of the housing allocations process, details of who receives an allocation of a public house - including names, number of adults/children and reasons for allocation (including time on list etc) be given to elected members one month after the allocation is made.’

(Proposer: Cllr. M. Finn 17/225)

The report of the Director of Services stated that a monthly report on Housing Allocations is currently compiled and circulated to the Members which includes the following information:

- The address of each allocated property;
- The house type;
- The date of vacancy or purchase of each property as applicable;
- The date of application or transfer application of the successful applicant as applicable; and
- The composition of the applicant household to whom it was allocated.

The report also includes aggregated totals for the basis of need of the successful applicants.

The format of the report was amended in 2013, on foot of guidance receive from the Office of the Data Protection Commissioner. The report to the Members at the Housing Functional Committee Meeting on 2<sup>nd</sup> April 2013 advised that the advice stated, inter alia:

*“You will note that the advice concluded that there was insufficient basis for the circulation of personal data concerning housing applicants to Councillors. Obviously the same advice applies in relation to the listing which is the subject of this investigation. The provision of data relating to properties only (i.e. confirming whether a particular property in an estate has been allocated or not without reference to the successful applicants or in an anonymised form) would not be a matter of concern under the Data Protection Acts as no personal data is processed in the provision of data in that manner.”*

The report further referenced the Annual Report of the Data Protection Commissioner 2004, which stated:

*“The Data Protection Acts 1988 and 2003 provide at section 2(1)(c)(ii) that personal data “shall not be further processed in a manner incompatible with that purpose or those purposes” for which it was collected. Compatibility is determined by the connection and foreseen ability of the additional purpose to be compatible, the new purpose should be a linked purpose which would not cause surprise to a reasonable data subject. From the information supplied, it would be difficult to see how disclosure to elected members of the names and addresses of all applicants for housing in the county is compatible with the purpose for which applicants gave their details. I accept that members have a democratic function but their oversight of the housing process may be capable of being discharged by the supply of anonymised and aggregate data.”*

Members have been briefed on this matter on several occasions since receipt of the correspondence from the Office of the Data Protection Commissioner. Accordingly, the Housing Allocations report will remain in the current format.

#### 11.16 **RECRUITMENT OF EXECUTIVE HOUSING OFFICERS**

An Chomhairle considered and approved the report of the Acting Director of Services, Human Resource Management & Organisational Reform dated 14th September, 2017 on the following motion referred to the Committee by An Chomhairle:

‘That Cork City Council would immediately recruit a minimum of 9 extra Executive Housing Officers, enough to reduce the ratio of staff to tenants to the maximum figure of 1 to 500 and not the 1 to 1000 that Cork City Council currently operates. Also that Cork City Council must ensure that this maximum figure of 1 Executive Housing Officers to 500 tenants is not breeched going forward.’

(Proposer: Cllr. T. Gould 17/230)

The report of the Acting Director of Services, Human Resource Management & Organisational Reform stated that the HR perspective on this motion is that there is an establishment of 9 No. Executive Housing Officers (EHOs) on the staff of Cork City Council at the present time. The number of EHOs reduced during the period of the moratorium. The overall number of EHOs cannot be increased without prior approval of the Department of Housing, Planning & Local Government. If this is a course of action that the Housing & Community Directorate wish to consider they should initially forward a draft business case to the Chief Executive for consideration.

Additional to the H.R. considerations, there is also a significant financial element to be considered in relation to such a proposal and the availability or otherwise of funding in the budgetary process to cover the cost of employing these additional resources is a matter for the Finance Directorate.

#### 11.17 **IRON FENCE BETWEEN HOUSES IN COURTTOWN DRIVE & FOYLE AVENUE**

(Proposer: Cllr. M. Nugent 17/232)

Cork City Council is planning to carry out some public realm works in Foyle Avenue that would include replacement of the fence with a wall as soon as funding is secured from the Department of Housing, Planning & Local Government. It should, however, be noted that the City Council has made a number of attempts to secure the funding from them already and such funding may not be made available until 2019.

(Proposer: Cllr. M. Nugent 17/233)

The report of the Director of Services stated that the Department of Housing, Planning & Local Government announced a capital provision of €9 million for the delivery of Traveller accommodation in 2017. This is a €5.5 million increase on 2016 funding.

Cork City Council has made an application for funding for 2 projects in Spring Lane. This includes a proposal to make safe the earthen embankment and a proposal for the general refurbishment of the site.

No submission has been made for funding for the unauthorised site at Nash’s Boreen. Cork City Council, in conjunction with a number of other parties, is involved in discussions to resolve the situation at Nash’s Boreen. ## 12.31 **MOTIONS WHICH WERE HELD IN COMMITTEE**

### 12.31.1 **CITY COUNCIL MOVEMENT STRATEGY**

An Chomhairle considered and approved the report of the Director of Services dated 14th September 2017 on the following motion referred to the Committee by An Chomhairle.

'That Cork City Council given the implementation of the City Centre Movement Strategy would re-open Princes St, Marlboro St and Cook St on the South Mall side for parking during the life time of this scheme. The additional funding accruing to Council to be ring fenced for estate resurfacing.'

(Proposer: Cllr. S. Martin 17/137)

The report of the Director of Services stated that the restriction on parking between 11am and 5pm on Prince's Street, Marlboro Street and Cook Street was introduced so as to enable the pedestrianisation of Oliver Plunkett Street. If it were to be removed a large section of Oliver Plunkett St would have to be reopened for traffic on a full time basis. Any such changes would require extensive consultation with the traders on Oliver Plunkett

Street and their accompanying side streets as well as the completion of a formal Section 38 of the Road Traffic Act 1994 process.

Having considered the pros and cons of the change it is not recommended that the traffic arrangements be altered. The pedestrianisation of Oliver Plunkett St has been critical to its ongoing success. This is reflected in the high levels of activity on the street and this was recognised in its 2016 Academy of Urbanism's Great Street Award when it was chosen ahead of many other entrants from across Ireland, UK and Europe.

While the change would increase the availability of parking on side streets it will be noted that the gains are somewhat limited in light of the number of spaces in question (max of 36 spaces in total) and the fact that parking is already permitted outside the hours of 11am to 5pm. The potential additional income arising would not be of the scale to deliver an expanded surfacing programme.

Overall, it is considered that the pedestrianisation of Oliver Plunkett Street should be retained as it has been a very unique and positive initiative for the city centre. It has improved the attractiveness of the area and supported its success as a primary shopping area.

#### 12.31.2 **SURFACE WATER POOLING AND LODGING ON THE N40**

An Chomhairle considered and approved the report of the Director of Services dated 14th September 2017 on the following motion referred to the Committee by An Chomhairle.

‘That Cork City Council would present a report on the reasons for significant surface water pooling and lodging on the N40 particularly the section of road between and including the two flyovers at Sarsfield Road and Bandon Road and what remedial measures can and will be taken to reduce and eliminate this serious hazard.’

(Proposer: Cllr. J. Buttimer 17/052)

The report of the Director of Services stated that Cork City Council, TII and our respective consultants concluded an investigation into this matter. The investigation confirmed that the layout as constructed was compliant with the relevant design standards. It furthermore confirmed that the gully units and outlet pipes were operating normally. Notwithstanding the above, TII have agreed to make a number of layout alterations (pavement reshaping) to further improve the drainage system. This work will be undertaken by TII's maintenance contractor Egis Lagan within the next four weeks. Confirmation of same will be advised to members in due course.
