

February 2016

Cork City Council's Housing Maintenance Section endeavours to provide the best service possible to tenants in relation to maintenance and repair of their rented properties. In order for the Council to do this as fairly and effectively as possible, it is essential that tenants are aware of both the City Council's responsibilities and the tenant's own responsibilities, as detailed in the Tenancy Agreement.

Cork City Council intends to issue a revised and updated Tenant's Handbook in the near future which will cover all aspects of your tenancy, including the respective maintenance responsibilities of both the City Council and its tenants. In the interim, however, tenants are asked to please note the following :

1. Repairs that are the responsibility of the tenant will not be carried out by Cork City Council

The list overleaf sets out the types of house repairs that are the responsibility of the tenant as per the Tenancy Agreement. Utilisation of City Council resources in carrying out repairs which are tenant's responsibility would restrict the Council's ability to deal with valid repair requests from other tenants. Thus, in the interests of equity, Cork City Council is not in a position to accept or respond to such repair requests.

2. Logging of Repair Requests

All Housing Maintenance repair requests should be reported via the Helpline telephone, **021 4298710**. This number is attended normally from 09.00 to 17.00 Monday to Friday. However, if calls are queued or if lines are particularly busy, then callers should avail of the automatic messaging service. Details required are tenant's name, address, brief outline of repair requested, and a contact telephone number (in case there may be a query regarding the repair request). Callers leaving voice messages can be assured that all messages so recorded are downloaded each day and the repair requests are logged for attention, provided of course that the repairs requested are Cork City Council's responsibility.

Tenants are asked to note that there is no counter service for personal callers at any of the Housing Maintenance depots. Depot premises are workplaces under current Health and Safety legislation and are not open to the public.

3. The Housing Maintenance After-Hours service is restricted to emergencies only.

Repair requests received outside of normal hours on the Helpline messaging service will be logged and considered on the morning of the next working day. However, if an emergency repair request is received outside of normal hours via the City Council Emergency Number and if, on investigation, the out of hours service requested is not considered to be an emergency, then a charge reflecting the cost incurred by Cork City Council may be duly charged to the tenant's rent account.

Valerie O'Sullivan

Director of Services
Housing & Community
