What is the Bishopstown & Wilton Area Action Plan

The Draft Plan represents the second stage in the City Council's preparation of an Area Action Plan for Bishopstown and Wilton which will guide the area's development and change over the next decade.

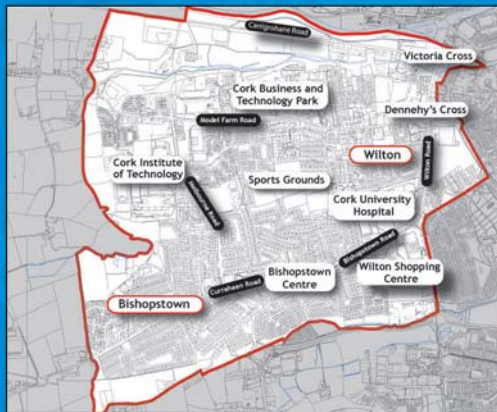

The Bishopstown and Wilton area is a predominately twentieth century residential suburb of Cork City, which is mature and well-established. The area also makes an important contribution to the employment, educational and healthcare needs of Cork City and the wider region.

However, given the pressure for change the area has experienced in recent years, there is a need to provide clear guidance on its future development. The Area Action Plan therefore will seek to reconcile complex planning issues in the area, while defining locations for development and providing a vision for them.

Plan Aim

To provide a coherent and integrated planning and development framework for Bishopstown and Wilton that enables the future orderly and sustainable development of the area
