

Central Cafe  
Lobony  
May 13/7

Dear friend. When you  
said we have been well but if your  
had through bodily strength or endurance  
is in proportion to your spirit you would  
be a physical giant. He said with  
things that have and to not bound down  
by physical or feminine. When I was in  
the East Indies that fact was brought  
very much to my mind. I was  
was held in prison - no chance of escape  
for all the thoughts they could present at will  
in spite of all the English on the walls  
any what I wished, to those allowed and  
to our grand country. Although I  
I may have been in England my spirit  
had not this but in it all atmosphere  
and to do these now, and what a grand  
thing it is with the knowledge of it  
we can defy the worst torments, and  
as they will we shall remain free  
as air, so thought surrounded on spirit

are beyond their reach, over them  
they have no control. That is where  
we were done all the time, and  
was right out too - the more they  
bind our bodies the more our spirit  
is free - and so I see too that English  
see much to their surprise. Suppose  
Government can do many things, but  
they cannot control your thought  
and they know it too.

You ought to be careful now and push  
up so that you come up by the summer  
be ready to benefit by the good weather.

Don't London splendide are with  
the Malines hills on fire - has to  
be taken it - Ireland as Archbishop White  
has said maybe said, but the rebels will  
find that they cannot deliver the goods.  
If they were out of London they always  
succeeded that but Irish Nationality is stronger  
than any party except any Empire and  
once people see the rottenness of their name  
their fate is sealed.

The two most important things now  
are - Watch the party and watch Russia

You must find it pretty hard to manage  
in Moscow, and now is no end  
poor things, till he not work for  
good. It is the howl over a policeman's  
it seems all the girls knuckled policeman  
each, think to whom or despicable look  
but they are apparently the same man countries  
I do you what that during the revolution  
Russia etc the policeman came in for the  
funny and talk of the people and some  
day

Thanks for the Exam. to very interesting,  
if we have any specially interesting  
collection send it to me and see to  
be careful. I am a Nut.  
And to Rebel looks 1-2-43 alright  
I hope so - Remember me to  
all friends and thank you for the  
careful or I'll send you very much.  
You could London do anything else when  
you may do. Stay away that anything you  
may do you'll get me that I'll be going  
home soon

With fondest affection beyond  
in Moscow  
Tom
