Roads & Transportation Functional Committee

12.4 **ILLEGAL DUMPING**

‘That in a bid to stop the ongoing practice of filthy, illegal dumping by mainly private tenants in areas close to the city centre island - which is impacting on tourist spots (despite the great efforts of council cleansing staff) - contact is made with, and responsibility for refuse put on, the property owners. Fines should be issued if they do not provide for refuse services at their properties.’

**Environment & Recreation Functional Committee**

12.6 **HOUSING Voids (Homes)**

‘Can we as a council pass a motion insisting that all housing voids (Homes) that come back into the possession of Cork City Council gets turned around and handed back to a family within one month to 6 weeks as a maximum period of time? There is approximately 150 - 160 homes a year come back into the possession of Cork City Council that would make a lot of families happy.

The longer a home is left idle the more it goes into disrepair, the more it costs to repair in the long run to bring back up to a standard to be handed back out to a family. Add this to the cost of boarding up the home and getting the utilities turned off and back on, and any possible vandalism that may happen in the meantime, add that to the loss of rental income €45 p.w. average rent = €2,340 p.a. Couple this with the potential savings in rent allowance or of taking a homeless family and housing them, it would work out cheaper in the long run even to pay a private builder to come in and fix up the home.

We know that due to the embargo and lack of funding the housing maintenance section is working at capacity this is why as a short time answer we might look to pay a private builder to come in and fix up the homes. From the rents collected on the homes and other savings pointed out earlier, over a short period of time this would become a self-financing project.’

(Proposer: Cllr. T. Moloney 14/336)

**Housing & Community Functional Committee**

12.7 **YELLOW BOX AT THE EXIT OF SILVERCOURT, NORTH RING ROAD**

‘That City Council would put in place a Yellow Box at the exit of Silvercourt on the North Ring Road to ensure the safety of residents from this estate and of residents from neighbouring estates onto what is a very busy road.’

**Roads & Transportation Functional Committee**
12.8 ROAD RESURFACING TO THE KENLEY ESTATE, MODEL FARM ROAD, CORK

‘That Cork City Council carry out road resurfacing to the Kenley Estate, Model Farm Road, Cork. The state of the roads in Kenley Estate, Model Farm Road are shocking.

I have been sent a letter from the resident with photo's of the state of the roads and also drove around the area to witness it myself. In particular they refer to the junction of Kenley Road & Kenley Close and also the road up to, and including, Kenley Circle. These section of roads undergo a high rate of daily traffic and have undergone remedial repairs (i.e. filling of potholes) periodically over the past number of years. However, these remedial repairs don't last long, especially in wet weather.

In 2011 resurfacing work took place from Kenley Avenue to the ramp on Kenley road, and this still looks like new today. The remainder of the estate roads were laid over 30 yrs ago, they now need immediate action on this section of the road. Many parts of this road is unsafe due to the number of pot holes. A complete resurfacing of this section is what's needed.’

(Proposer: T. Moloney 14/341)

‘That City Council would include Kenley Estate in the Estate Resurfacing programme for 2015.

Photographic evidence of the condition of this estate has been forwarded to the Roads Dept from the Residents Association, so I would ask that remedial work be carried out here in the meantime as the road surface is presently in a very poor condition.

(Proposer: Cllr. K. McCarthy 14/355)

13 **MOTIONS**

To consider the following motions, due notice of which has been given:-

13.1 **WATER CHARGES**

‘That Cork City Council calls on the Government to push out or back the date for the introduction of water charges.

The message from the electorate during the recent local election was one of fear right across the social divide. The public have hit the wall in relation to wage cuts and increased taxes both direct and indirect. A period of time is required to allow the public to re-adjust to the
changing circumstances. The imposition of household charges/proposed charges was not implemented in a fair and just manner (negative equity-payment of stamp duty – mortgages-payments – loss of income) there is no doubt that with the monster that is Irish Water the same process will ensure- no allowances for real lives, no social equality, just broad struck assumption.’

(Proposer: Cllr. S. Martin 14/251)

13.2 IRISH WATER

‘That City Council would invite / request that a representative from Irish Water would meet with Council Members and address the many inquiries that still need to be answered. We as public representatives need answers for our constituents and it is just not good enough that this request has not been granted when requested on numerous occasions previously.’

(Proposer: Cllr. H. Cremin 14/346)
