(Cllr. Joe Kavanagh)
Deferred from meeting of 23rd April

6.3 **PUBLIC REPRESENTATION SYSTEM**

In response to the following question submitted by Comhairleoir P. Dineen, a written reply was circulated as outlined below:-

In relation to the Public Representation system and in particular to the formal record of each representation that is emailed following each submission. Can it be explained why I only ever receive a formal record of the representations that I log to the Housing Allocations Department and not the Homeless Department, Maintenance Department, Environment Parks & Recreation etc.

For example I received a formal log for two representations which I logged to the Housing Allocations Department last week and they are CCC/PR/3465 and CCC/PR/3467. However please note that I have not received a formal record for any of the following recent representations sent to other Departments:

CCC/PR/3380 - Homeless Section - 14/03/2019
CCC/PR/3322 - Maintenance Section - 14/02/2019
CCC/PR/3421 - Environment Parks & Recreation - 28/03/2019

The above are just some examples of representations logged where no formal record from these departments were received. I made enquiries about this some months ago but nothing has changed.

(Cllr. Paudie Dineen)
REPLY

Members would not have received automated replies to all representations in certain instances due to a software issue with the Public Representation computer programme. These teething problems with the system are now resolved with the software developers. However, it is important to note that all representations submitted by Members are being received, and reviewed by the appropriate staff. Additionally, the system also maintains an archive of all representations received, to allow both staff and individual users to re-access or reprint the details of a representation and the acknowledgment letter generated at the time it was first received. The majority of representations submitted in fact are for Housing Allocations, and the automatic e-mail has worked correctly for those representations.

B. Geaney,
Director of Housing.

In response to the following question submitted by Comhairleoir F. Dennehy, a written reply was circulated as outlined below:-

To ask if the C E is aware of the huge difficulties being experienced in exiting onto the Wilton Road by users of the SMA in Wilton following the installation of a bus lane which is being incorrectly used as a filter lane for the shopping centre and is it possible to install a yellow hatched box at this location to alleviate this serious and dangerous situation.

(Cllr. Fergal Dennehy)

REPLY

The design team for the Sarsfield Road project had been in ongoing communication with representatives from the SMA throughout the upgrade project. The SMA Representatives have requested the installation of a yellow box junction at the front entrance of their property. Unfortunately this cannot be accommodated as yellow box junctions of the type requested are only recommended for the junction of two public roads therefore it is not suitable at this location. The Council has confirmed however that it will reassess the situation and this will be done as part of the upcoming Road Safety confirmed Audit.

‘That Cork City Council have discussions with the various bin collection utilities and discuss the need to change the collection regimes within the confines of UCC. Mondays and Fridays are not the priority days for college students. To maximise collections and avoid excessive rubbish on our streets the days of collection need to change.’

(Proposer: Cllr. S. Martin 19/006)

Environment & Recreation Functional Committee

17.2 **CUT BACK TREES IN DEERPARK MEWS AND MUSGRAVE PARK**

‘(a) That Cork City Council organise to have trees cut back at Deerpark Mews. (b) The footpath running parallel to the derelict Vita Cortex site. The trees are overgrown and dangerous to the public using the footpath towards Musgrave Park.’

(Proposer: Cllr. S. Martin 19/007)

Environment & Recreation Functional Committee
17.3 **RESURFACE LANDSDOWNE ESTATE SQUARE**

“To have a zebra crossing / pedestrian crossing installed on the Glasheen Road coming out of Tara Lawn across to the Bus Stop across the road on the Glasheen Road, by Lisieux Park. This is a very busy and dangerous road and the residents are very fearful trying to cross the road to get the bus. As we are trying to get people out of their cars and into public transport we have to make it safe for them to do so. While there is a cross down the road
by School Avenue there is no footpath on that side of the road for people to walk up to the bus stop safely.’
