Planning Legislation/Regulations

In order to assess whether or not the proposal is or is not development and is or is not exempted development, regard must be had to the 2000 Planning and Development Act (as amended) and the 2001 Planning and Development Regulations (as amended). The principal provisions of both the Act and the Regulations are outlined below.

Planning and Development Acts, 2000 (as amended)

Section 2 of the 2000 Planning and Development Act, as amended (PDA), includes the following definitions which are of relevance to this assessment:

***“Structure”** means any building, structure, excavation, or other thing constructed or made on, in or under any land, or any part of a structure so defined, and—*

(a) where the context so admits, includes the land on, in or under which the structure is situate, and

(b) in relation to a protected structure or proposed protected structure, includes—

- a. the interior of the structure,*
- b. the land lying within the curtilage of the structure,*
- c. any other structures lying within that curtilage and their interiors, and*
- d. all fixtures and features which form part of the interior or exterior of any structure or structures referred to in subparagraph (i) or (iii);*

Section 3(1) of the PDA defines *“Development”* as, ‘except where the context otherwise requires, the carrying out of any works on, in, over or under land or the making of any material change in the use of any structures or other land’.

Section 4 of the PDA relates to ‘Exempted Development’ and subsection (1) sets out categories of development that shall be exempted development, including subsection 4(1)(h) which includes:

‘Development consisting of the carrying out of works for the maintenance, improvement or other alteration of any structure, being works which affect only the interior of the structure or which do not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or of neighbouring structures.’

Section 4 (1)(h) of the Act states that works which affect only the **interior of the structure** or which do not materially affect the external appearance of the structure will be considered exempted development.

Section 4(2)(a) states that the Minister may by regulations provide for any class of development to be exempted development where he or she is of the opinion that the carrying out of such development by virtue of its size, nature or limited effect on its surroundings, would not offend against the principles of proper planning and sustainable development.

Section 4(2)(b) of the Act states that regulations under paragraph (a) may be made subject to conditions and be of general application or apply to such area or place as may be specified in the regulations.

Planning and Development Regulations, 2001 (as amended)

Under the provisions of the Planning and Development Regulations 2001 (as amended), Article 6 provides that:

“Subject to Article 9, development of a class specified in column 1 of Part 1 of Schedule 2 shall be exempted development for the purposes of the Act, provided that such development complies with the conditions and limitations specified in column 2 of the said Part 1 opposite the mention of that class in the said column 1.”

It is submitted that the proposed development falls within Class 20F, which relates to the temporary use to accommodate or support displaced persons or persons seeking international protection.

HSA Guidance on Technical Land Use Planning Advice

The Technical Land Use Planning advice (TLUP) report is a Guidance document published by the Health and Safety Authority (HSA). The document outlines how the HSA will go about developing the required technical advice which it must provide planning authorities with respect to planning applications. The document categorises 'zones' in terms of a site's proximity to a Seveso Site and identifies a hierarchy of 'Levels' of development which can be deemed either suitable or unsuitable in the context of the 'zone' that it is identified within.

For sites located in the 'Outer Zone' of a Seveso site, uses identified in the TLUP report ranging from Levels 1, 2 and 3 are suitable.

	Inner Zone (Zone 1)	Middle Zone (Zone 2)	Outer Zone (Zone 3)
Level 1	✓	✓	✓
Level 2	✗	✓	✓
Level 3	✗	✗	✓
Level 4	✗	✗	✗

Figure 2 – Nature of TLUP advice provided for each zone as per the HSA TLUP report.

Appendix 3 of the TLUP provides a sample, but not limited, list of uses which would be considered permissible in Outer Zone defined areas. This includes 'Accommodation of more than 100 beds or 33 caravans/tent pitches.' Examples of which include 'Larger hotels, motels, hostels, youth hostels, holiday camps, holiday homes, halls of residence, dormitories, holiday caravan sites, camping sites.'

Assessment

In accordance with Section 5 of the Planning and Development Act 2000, our client is seeking confirmation that the temporary change of use from office to accommodate or support displaced persons or persons seeking international protection at the Cube Building located on Monahan Road, Cork City, at ground, second and third floor levels is exempted development.

The parent permission for the Cube Building, ref. no. 06/30815, has been outlined above. This permission established the use of the building as 'a business technology building comprising of a single level basement

carpark, 5 storey building for **office use**'. Confirmation of the building use is stated in Condition No.5 attached to the permission which states the following:

'The proposed commercial uses shall be restricted to Business and Technology uses as defined in paragraph 10.6 of the Cork City Development Plan 2004 and subject to agreement of the Planning Authority.'

Paragraph 10.6 of the 2004 Cork City Development Plan states that the objective of 'Business and Technology zoning is:

To provide for high technology related office-based industry.

*The purpose of this zoning objective is to encourage the provision of **office based industry**. These industries include software development, commercial research and development, publishing, information technology, telemarketing, data processing, media recording and media associated activities. Light industrial uses will also be permitted in this zone. Companies providing technical professional services to industry may be considered as an office based industry where they occupy space greater than 1000 sq. m.'*

The parent permission for the building confirms that the permitted use of the building is 'office'. Class 20F of the Planning and Development Regulations 2001 states that this exemption applies to 'any structure or part of a structure used as a....office'.

The proposed temporary change of use only relates to part of an existing office block, with proposed change of use at ground, second and third floors. No change of use is proposed for the basement level or first and fourth floors of the building. The change of use of 'part of a structure' is consistent with the provisions of Class 20F, which covers the proposal presented for The Cube Building.

In accordance with the conditions and limitations associated with Class 20F, as outlined in Table 1 above, the following will apply in respect of the proposal:

- The temporary use will only be for the purposes of accommodating or supporting displaced persons or persons seeking international protection;
- Subject to paragraph 4 class 20F, the use for the purposes of accommodating displaced persons shall be discontinued when the temporary protection introduced by the Council Implementing Decision (EU) 2022/382 of 4 March 2022 comes to an end in accordance with Article 6 of the Council Directive 2001/55/EC of 20 July 2001.
- The use for the purposes of accommodating persons seeking international protection will be discontinued within the timeframe outlined in the Conditions and Limitations for Class 20F.
- Where the obligation to provide temporary protection is discontinued in accordance with paragraph 2 of Class 20F, on a date that is earlier than 31 December 2028, the temporary use will continue for the purposes of accommodating persons seeking international protection in accordance with paragraph 3 of class 20F.
- Cork City Council has been notified of the proposed change of use.

In addition to the above, the proposed change of use also complies with the provisions of Article 9(1)(a) of the Planning Regulations in that the proposed change of use:

- will not contravene a condition attached to a permission;

- will not consist of or comprise the formation, laying out or material widening of a means of access to a public road the surfaced carriageway;
- will not endanger public safety by reason of traffic hazard or obstruction of road users;
- will not comprise the construction, erection, extension or renewal of a building on any street so as to bring forward the building, or any part of the building, beyond the front wall of the building;
- will not interfere with the character of a landscape, or a view or prospect of special amenity value or special interest, the preservation;
- will not have any effect on the integrity of a European site or natural heritage area;
- will not consist of or comprise the extension, alteration, repair or renewal of an unauthorised structure;
- will not preclude or restrict the continuance of the existing use;
- will not obstruct any public right of way;
- will not comprise the carrying out of works to the exterior of a structure within an architectural conservation area.

In addition to the above, the associated works to facilitate the proposed temporary use will affect only the **interior of the structure** and therefore comes within the exempted development provisions of Section 4(1)(h) of the Planning and Development Act, 2000 which states that *'development consisting of the carrying out of works for the maintenance, improvement or other alteration of any structure, being works which affect only the interior of the structure or which do not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or of neighbouring structures will be exempted development.'*

With regards to the Seveso consultation distance within which The Cube is located due to its proximity to Goulding's Chemicals, consultation has been undertaken with the HSA as part of the preparation of this Declaration.

Evidence of the consultation with the HSA is enclosed with this Declaration and is appended to this covering letter. The HSA have confirmed that The Cube Building is located within the **'Outer Zone'** of the contour mapping associated with Goulding's Chemicals.

As referenced above, a non-exhaustive list of suitable uses within outer zone areas is provided in Appendix 3 of the HSA TLUP document. According to this document, suitable uses in the outer zone include **'Accommodation of more than 100 beds or 33 caravans/tent pitches.'**

The proposed change of use at The Cube Building is consistent with such permissible uses identified by the TLUP report.

Conclusion

The proposed temporary change of use of the ground, second and third floors of the Cube Building from office use to use to temporarily accommodate or support displaced persons or persons seeking international protection is exempted development as per the provisions of Class 20F of Part 1 of Schedule 2 of the Planning and Development Regulations 2001 (As amended) and complies with all of the criteria included in Article 9(1)(a) of the Planning Regulations. The internal works are exempted development under Section 4(1)(h) of the Planning and Development Act.

Accordingly, it is submitted that the change of use from Office building to accommodate international protection applicants (Class 20F) at the Cube Building located on Monahan Road, Ballintemple, Cork City, at ground, second and third floors levels- keeping floor one and four as office use, is exempted development on the basis that:

- The change of use complies with the provisions of Class 20F of Part 1 of Schedule 2 of the Planning and Development Regulations 2001 (as amended).
- The associated works to facilitate the proposed use will affect only the interior of the structure and therefore come within the exempted development provisions of Section 4(1)(h) of the Planning and Development Act, 2000.

We would kindly ask the Planning Authority that in light of the material furnished as part of this declaration, alongside a clear, concise explanation of the proposed change of use, that a decision on this declaration within the appropriate statutory period is made.

Given the temporary nature of the Class 20F exemption, which only allows for a temporary change of use up until 31st December 2028, we ask the Planning Authority to come to their own determination on this matter.

Please do not hesitate to contact us should you require any further information.

Yours sincerely

McCutcheon Halley

Hi [REDACTED]

Currently, the TLUP contour maps are not publically available.

The 'Cube Building' as shown in your Figure below is in the outer zone.

The edge of the outer zone in this area extends to roughly just past the adjacent building to the east.

Please refer to Table 4 and Appendix 2 in the HSA TLUP Guidance to determine what development is permitted in the outer zone.

Kind Regards,

Hi [REDACTED]

That's great thanks. [REDACTED]

The building in question is The Cube on Monahan Road. We are looking to ascertain which zone the building falls under with regards to proximity to Gouldings. Ideally the 'Inner, Middle, Outer' map for Gouldings would be shared just so that we might be able to overlay it onto our own drawings. Failing that, some indication as to where 'middle' and 'outer' zones start and end would be helpful as I understand that this building is located close to both.
