## Architectural Conservation Areas Grant Scheme 2026

# Application Form

**Grant applications to be submitted by 4pm on Friday 6<sup>th</sup> February 2026.**

**Works must be completed within 2026. In practice this will mean that payment claims will need to be submitted to Cork City Council by Friday, 30<sup>th</sup> October 2026. Please refer to appendices for further information on the scheme.**

The scheme aims to encourage good custodianship of historic buildings in Architectural Conservation Areas (ACA) and support traditional skills through best conservation practice when carrying out repairs; see Appendix One. The funds available to this scheme (which total approximately €150,000, with up to €20,000 available per building/ project) aim to assist owners and occupiers of historic buildings to carry out repair and conservation works during the period specified in Appendix Two.

## 8. Any Other Comments

## 9. Declaration

I certify that:

- (a) I understand and fulfill the terms and conditions of the grant scheme;
- (b) The information provided in the application form and supporting documents is correct and that I will notify the relevant local authority if there is any change in that information;
- (c) my tax affairs are in order; and
- (d) I understand that payment of a grant by a local authority under this scheme does not imply a warranty on the part of the authority or the Minister for Housing, Local Government and Heritage in relation to the suitability or safety of the works concerned or the state of repair or condition of all or any part of the structure concerned or its fitness for use.

I understand that the local authority may make any enquiries that it considers necessary to establish my eligibility for a grant, and that the authority's decision is final.

### Scheme Overview

---

#### Aim of the Scheme

The scheme aims to encourage good custodianship of historic buildings in Architectural Conservation Areas (ACA) and support traditional skills through best conservation practice when carrying out repairs.

#### Who can Apply

The 2026 scheme is open to owners and occupiers of buildings (domestic and non-domestic) located within any of the ACAs located in Cork City. The funds available to this scheme (with a max grant of €20,000 available per project) aim to assist historic building owners and occupiers in carrying out repair and conservation works during the period specified in Appendix Two.

The ACA boundaries are illustrated on the following map:

<https://corkcityco.maps.arcgis.com/apps/Styler/index.html?appid=a5e7b4ae448c4fdfb88ce42782c95b84>

If the applicant is in doubt as to the eligibility of a particular structure under this scheme, they are encouraged to contact their Local Authority with their query.

#### Qualifying Works

The scheme targets conservation repair of the external envelope of historic buildings, which will have an immediate and obvious benefit to the ACA; particularly meaning works that would be visible from the street. These works include, but are not limited to:

- Repairs to roof, roof elements and rainwater goods;
- Repairs to external walls, historic renders and stuccowork;
- Repair of historic windows and surrounds;
- Repair of historic doors and doorways;
- Repair of historic shopfronts /historic signage
- Repairs to historic ironwork, limestone steps, and other boundary treatments;

Reinstatement of lost character may also be considered where this benefits the ACA, such as the replacement of uPVC windows with bespoke historically appropriate timber sliding sash windows.

All proposed works should be carried out in accordance with best conservation practice standards as outlined in the Department's *Architectural Heritage Protection Guidelines for Planning Authorities (2011)* <https://www.gov.ie/en/publication/0937a-architectural-heritage-protection-guidelines-for-planning-authorities/> and Advice Series publications <https://www.buildingofireland.ie/resources/>

If a grant is awarded for qualifying works, this is provisional approval only and the precise nature of the works are to be agreed following the initial site inspection by the Conservation Officer.

In exceptional circumstances consideration may be given to supporting internal repair works where they relate to key historic features (e.g. stairwells, joinery and decorative plasterwork).

Note: Works cannot be funded retrospectively. Works that have commenced before notification of funding approval under this scheme or where works have commenced prior to a site inspection by the Local Authority will **not be funded**.

### How to Apply

The following is a short checklist (Please refer to Appendix Two for details on the application process):

- Complete the Application Form, which should include a detailed list of the proposed works;
- Provide signed consent of the Owner (if the Applicant is not the Owner);
- Provide a Method Statement for the proposed works (detailed list of works to be included) describing the current condition of the areas proposed for repair and including details of how the proposed conservation works will be carried out;
- Provide dated photographs showing the building and the condition of the specific areas to which works are proposed;
- Provide a breakdown of costs, following a request for three quotations;
- Provide copies of all quotations received;
- Submit your application as per the instructions in Appendix Two.

### Assessment

Eligible applications will be assessed for selection under the following criteria:

- The completeness of the application (See Note 5 Appendix II);
- The efficacy of the proposed works, demonstrating value for money and how the proposed works will prevent further deterioration to the building;
- The importance of the works to safeguard historic fabric and the methodology of works proposed, ensuring that best conservation practice is employed;
- The significance of the historic building and/ or fabric it is proposed to repair;
- The benefits to the wider ACA; particularly meaning works that would be visible from the street.

### Funding of Projects

Grants of up to €20,000 are available under this scheme. Works can be funded up to a maximum rate of 50% of the project cost. Grants exceeding 50% of the total project cost may be offered in exceptional circumstances and:

- Where the public benefit outweighs the private benefit;
- In relation to the repair of specific Unique Cork building types and building features (e.g.: gabled houses, bow-fronted houses, bay-fronted houses, slate-hung elevations, and historic timber sashes).

## Appendix Two

### Notes on applications

- 1 Funding available to Cork City Council for this Architectural Conservation Areas Grants Scheme is limited, competitive and there is no automatic right to a grant.

Applications will be prioritised on the quality of the application and adherence to the qualifying works as outlined in Appendix One of this document. The decision of Cork City Council is final.
- 2 The application form must be fully and clearly completed, and must be accompanied by the appropriate documents (as described in Appendix I). Incomplete applications will not be accepted.
- 3 **Submission of applications**

Apply online at [Conservation Grants - Cork City Council](#)  
If submitting a hard copy, completed application forms should be submitted for the attention of: Conservation Officer, Strategic Planning & Heritage, Planning and Integrated Development Directorate, Cork City Council, City Hall, Cork.
- 4 **Funding**

Details of how the cost of the works, other than the amount of the grant sought, is proposed to be funded must be stated. The applicant must indicate the amount of the applicant's personal or business resources being used and any:

  - Grants, subsidies or assistance from statutory bodies, or
  - Sponsorship or assistance from a non-statutory source, received or being sought.

Where any part of the works is being carried out by the applicant directly, or where they are being undertaken by voluntary means, this must also be stated.
- 5 **Documents**

Refer to Appendix One ('How to Apply') for the documents required with the submission.
- 6 **City Council Conservation leaflet**

Architectural Conservation Areas: *advice and guidance to owners and occupiers*, a leaflet published by Cork City Council in 2023, provides general guidance on good practice in Architectural Conservation Areas. This is available on [Conservation Grants - Cork City Council](#). Further guidance on the approach to repair can be found in the Advice Series produced by the Department of Housing, Local Government and Heritage (see <https://www.buildingsofireland.ie/resources>)

## 7 Planning and Consents etc.

Any grant of funding is not to be taken as a waiver of the responsibility of the applicant and/or developer to comply with the provisions of any Act, Order, Regulation or any other statutory provision (e.g. National Monuments Acts, Building Regulations, Planning and Development Acts, and Regulations, Waste Management Acts, etc). Please note that a grant of funding does not imply that the funded works including any submitted drawings are in compliance with the Building Regulations. Compliance with the Building Regulations is a matter for the applicant and their technical advisors.

## 8 Tax Clearance Procedures

All grants are subject to Department of Finance Tax Clearance Procedures. The current requirements are set out in *Circulars 43/2006* and *Circular 44/2006*, as updated. This will mean that (subject to new requirements):

- Any proposed contractors will need to show that they are within the tax system (e.g. by means of a Tax Clearance Certificates or sub-contractors determination); and
- Those in receipt of public grants exceeding €10,000 in any tax year will also need to show that they are tax compliant by means of a Tax Clearance Certificate.

## 9 The ACA grant process
